

Figure 1

Figure 1 consists of two panels, A and B, showing histograms of the number of non-zero elements per row in sparse matrices.

Panel A shows the distribution for the matrix A_{cyl} . The x-axis is labeled "Number of non-zero elements per row" and ranges from 0 to 60. The y-axis is labeled "Frequency" and ranges from 0 to 8. The histogram shows a peak at 10 non-zero elements per row.

Panel B shows the distribution for the matrix A_{rect} . The x-axis is labeled "Number of non-zero elements per row" and ranges from 0 to 60. The y-axis is labeled "Frequency" and ranges from 0 to 8. The histogram shows a peak at 10 non-zero elements per row.
